

Maths Week 13

Shape

Dear parents,

This week children will revisit the 2D and 3D shapes. The PowerPoint presentation has all the week's lessons. There is a slide before each lesson indicating the beginning of the lesson and a slide at the end of the lesson praising children for their good work and indicating that the lesson is over. There are 2 Kahoot quizzes this week: one on Monday and one on Thursday. On Wednesday, PowerPoint presentation will ask children to create their own 2D shapes. You will need sticks of equal length (e.g. lollipop sticks, toothpicks, cotton buds etc.), some playdough or blu tack, 2 sheets of paper, scissors and a Sellotape or a masking tape. Friday's task will be an investigation. Prompt your child to talk, discuss and explain their thinking as all this builds a secure understanding.

Additionally, keep encouraging your child to practice their number bonds to 20. The link to online resource: <http://www.ictgames.com/funkyMummy/index.html>.

Timetable for the week:

Monday – Kahoot quiz, pin: **07939391**; PowerPoint presentation

Tuesday – PowerPoint presentation

Wednesday – PowerPoint presentation, making the shapes

Thursday – Kahoot quiz, pin: **0346189**; PowerPoint presentation

Friday – PowerPoint presentation

Thank you very much again,

Year 2 team
