30/4/20

Dear Parents and Carers,

I hope you are all keeping well and safe. I have had a lovely week in school. It has been so nice to see at least some of the children and I have been reminded of the reasons that I came into the teaching profession in the first place.

Home learning

I understand that if you are not from an educational background the demands of home learning can be very tricky. It can also be trying if you are a teacher or a teaching assistant, because your own children just do not see you that way. The next week of planning should be on the website by Monday. We are giving it to you a week at a time so that it is not an overwhelming amount of work. Some of you will have taken a break in home schooling over what should have been the Easter holiday. If you have do not worry about racing to catch up, it is better to stick to the teaching sequence because the blocks of work often build on each other.

Email

Now that you have an email address for your child's class teacher the children are starting to send in photos and emails about what they have been doing. I have seen some of the photos and read some of the emails and they are a lovely record of your child's achievements. I hope that this link is proving useful and improving the lock down for your children.

Website

The school website has been updated and now includes some photos of staff being superheroes and a video message from all the staff. In the future we hope to be able to put some photos of the children and/or their work on the site. Can you please let us know when you send any photos in if we can use it. We are probably going to have to select a few photos each week.

Next week

Mrs Hill will be back in the office full time next week and I am sure that she will issue a newsletter on Friday in the usual way.

I wish you all the best for the weekend. Best wishes,

Mrs S Degg
