11th May 2018

Dear Parents,

This week the children have enjoyed assemblies themed by 'cooperation, working as a team and following the rules' which gave me an excellent excuse to talk today about how bees operate cooperatively using pictures and video footage from my own hives! Yes, my bees have arrived and I have two hives at the back of my garden with bees foraging for nectar, water and pollen. I shall pop up some pictures and video footage in the near future and keep you all posted on my bee keeping adventures.

Video footage of Spot and Holly the lambs that visited us for a week in the spring

Shortly there will be two videos to view on the school website showing the farm where Spot and Holly were born, their time at our school and what they look like now on the farm. We are very grateful to Miss Strong, our student teacher who is currently working in Holly Class, who has arranged the whole lamb experience for the school children and who keeps us all updated on life on the farm. I am proud to say that Miss Strong will be employed as a teacher in September and we will hopefully get involved in more farm and animal links for the children to enjoy.

I hope you all have a lovely weekend and that the weather stays fine for the pirate weekend in Plymouth.

Yours sincerely,

E.A. Hill

Head Teacher
